

WARIOWEATHER TOURIST

Weather station and tourism

Wario Weather is a modern, highly sophisticated compact weather station for analyzing current weather conditions and forecasts for the particular location of your hotel and sports complex. Thanks to a very easy integration into your already existing website, you can share this information with people visiting your webpage. The device is quite compact and easy to install and allows long-term trouble-free operation with no additional hidden costs for operation or service.

Using the Wario Weather station has many advantages. The measured values can be viewed using clear graphs up to 10 years back. In addition, the intuitive graphical user interface provides many additional and calculated values such as short-term forecast, zodiac, Moon phase, Moon rise and set times, Sun rise and Sun set times, day length, name day etc. All this can be viewed not just on a PC or laptop, but also smartphones, tablets or any other device that has access to the Internet via an Internet browser.

MAIN ADVANTAGES OF USING THE WEATHER STATION FOR TOURISM AND LEISURE TIME

-  *planning the right activity based on current weather conditions and forecast*
-  *early warnings for sudden or unexpected changes in weather conditions*
-  *possibility to view historical data and make statistical analysis, comparisons and display graphs*
-  *no additional costs or fees associated with operating the station or publishing data on the Internet*

The weather station provides you with the possibility to share the measured values either by easily integrating it into your own already existing webpage, or you can take advantage of the possibility to use many tools for analyzing the actual and historical data and viewing them directly at **www.meteo-pocasi.cz**.
